Central Manufacturing District (CM).

The CM District includes historical manufacturing/industrial areas of the City, many of which are located in close proximity to residential districts as well as industrial sites annexed to the City between 1947 and 1952. A variety of manufacturing uses are permitted, with special exception approval required for those uses with potential negative impacts on nearby residential districts. In addition, certain commercial uses considered to be compatible with manufacturing/industrial uses are permitted. In order to encourage reuse of vacant or underutilized manufacturing/warehousing facilities, other nonresidential uses are also permitted, subject to certain conditions.

*See Lancaster City Code of Ordinances for Table of Permitted Uses and additional information:
