**Mixed Use District (MU).**

The MU District includes areas of the City characterized by residential uses in close proximity to nonresidential uses, including historic warehouses and manufacturing facilities, many of which have been vacated by the original industries. In addition, the MU District includes undeveloped land where new mixed-use residential and nonresidential development with traditional neighborhood character is recommended. A variety of residential, commercial, cultural, light industrial and other miscellaneous uses are permitted in order to encourage the reuse of former manufacturing structures and undeveloped land. This is the only zoning district which permits both dwellings and a variety of manufacturing uses to coexist. However, since the MU District is considered primarily as a high-density residential district, all manufacturing uses must meet certain conditions and receive special exception approval.
