11 MOUNT AUBURN ST. CAMBRIDGE

WELCOME TO THIS 2026 CAMBRIDGE HISTORICAL SOCIETY PRESERVATION AWARD-WINNING TOTAL TRANSFORMATION IN THE HEART OF HARVARD SQUARE

Originally designed by Graham Gund, this 2,870 SF detached single-family home — 4 bedrooms plus a home office, 4.5 baths across 4 levels — delivers elevated finishes without a single expense spared.

The main level unfolds as one open-concept space encompassing living, dining, and a chef's kitchen centered on a Taj Mahal quartz island with Thermador appliances and a pot filler. Custom built-ins and a fireplace anchor the living area, with a tucked-away powder room and direct access to a private patio completing the main level. Ideal as the main suite or a quiet retreat for extended family, the entire third floor is given over to a primary sanctuary, with remote skylights, a full wet bar, custom walk-in closet and a Porcelanosa inspired spa bath with soaking tub.

The second floor offers a second ensuite bedroom easily suited as an alternate main primary suite, along with an additional bedroom, a home office, a full bathroom, and a dedicated laundry space. A fully private, lower-level au pair suite (separate entrance, laundry, heated floors) offers rare flexibility for extended family or long-term guests. Hardwired Sonos, heated floors, CCTV security with one parking spot included.

Just moments from Harvard University and within close proximity to MIT, and the Charles River, this address puts Harvard Square's cafés, restaurants, shopping, and Red Line access all within easy reach. No expense spared in a home that sets the standard for Harvard Square living.
